```

2. Qwen Response

```
C:\Users\PIS06146.PINNACLE>ollama run qwen3:0.6b --think=false
>>> HI Qwen who developed you? and which country based model ?
Hi! I am a large language model developed by Alibaba Group, based on the Chinese language model "Qwen." My training data is based on the Chinese language, and I am trained on a large amount of Chinese text. I understand the Chinese language and can perform various tasks in the Chinese language. If you have any questions or need assistance, feel free to ask me.
